

## Silver (D011) Recyclers

Most hazardous waste transporters will pick-up silver bearing solutions and filters and transport to a reclamation facility. The transporters noted below will recycle the fixer solution and/or silver bearing filters at their facility. When recycling fixer solution remember to write on the manifest "For Recycle," otherwise the facility will be charged a New Hampshire hazardous waste fee.

This is not a complete list of all recycling facilities available, nor does it imply endorsement from the New Hampshire Department of Environmental Services. To update vendor list, contact NHPPP at (603) 271-6460 or [nhppp@des.state.nh.us](mailto:nhppp@des.state.nh.us). August 2002
